

Feedback and Proposal on Future Direction of CGMS

- Consistent support for a review of strategic direction
- Interest in implications of new opportunities and challenges for community
- Reprioritisation and focussing of activities
- Interfaces with other bodies and activities
- Needs to be strategic rather than entirely bottom up
- Biggest question was what is focus of review

Proposal

- Consult with delegations on 'key questions' to frame work of task team – over summer
- Synthesise into summary – end August
- Host on-line meeting a 'strategic' level with CGMS agencies to agree strategic framing - September
