Agenda Item: A.6
Discussed in Plenary

REVIEW OF ACTION ITEMS

This document reports the status of Actions from the CGMS-35 meeting for review.
KMA performed 1 Permanent Action, and 1 Action from CGMS-35.

KMA REVIEW OF CGMS-35 ACTION ITEMS

Permanent Actions

1. All CGMS members to inform the Secretariat of any change in the status or plans of their satellite to allow the updating of the CGMS Tables of Satellites

KMA submitted a country report (See KMA-WP-02)

Actions and Recommendations from CGMS-35

Action 35.24 CGMS current and future satellite operators to review their possible flexibilities to adjust the nominal location of their baseline geostationary satellite and to provide the information at the next CGMS session. Deadline: CGMS-36.

COMS has three missions: communication, ocean and atmosphere monitoring. Due to another two missions of the different organizations, i.e., communication (ETRI) and ocean monitoring (KORDI), the flexibilities of COMS (orbit is 128.2E) will be highly limited.
