Prepared by: EUMETSAT
Agenda Item 8.7
Discussed at WG-I

Subject	Best practices in support to DCP TX certification process - latest version and new proposals
In response to CGMS action/recommendation	
HLPP reference	
Executive Summary	This document covers the status of the DCP TX certification best practice status
Action/Recommendation proposed	

1 INTRODUCTION

This document covers the status of the following document EUM/CGMS/DOC/21/1252912 “CGMS agency best practice in support to DCP TX certification process” v1, 5 November 2021. The status is that assigned by the CGMS WGi DCS Task Group.

2 STATUS

This document is still current and covers the best practices sufficiently. With the planning of a new Enhanced DCP standard it may be necessary to update this document. This will be taken from the initial lessons learnt from the EDCP certification process.

3 CONCLUSION

Document is fit for purpose and no updates are currently needed.
