

## 14:50-15:05 Introduction to Poster Session 2

- An assessment of the impact of the assimilation of NASA TERRA MISR AMVs on the NRL global environmental model **Nancy Baker**, Patricia M. Pauley, Rolf H. Langland, Kevin Mueller, Dong Wu
- Geometric cloud motion winds in convoy of satellites **Ad Stoffelen**, Karl Atkinson, Amanda Regan
- Status of AMV usage in NWP at DMI **Bjarne Amstrup**
- Improving the nowcast of mesoscale convective systems in ForTraCC **Renato Galante Negri**
- Performance of the NOAA AWG cloud height algorithm applied to current geostationary and polar orbiting imagers **Andrew Heidinger**
