Welcome Addresses.....	ix
Summary of the Sixth International Winds Workshop.....	xvii

Report of the Chairperson of Session I: D. Hinsman <i>Current Systems to Derive Atmospheric Motion Vectors (AMVs)</i> .....	1
--	---

Report of the Chairperson of Session II: J. Xu <i>Mesoscale Applications</i> .....	3
---	---

Report of the Chairperson of Session III: M. Tokuno <i>Verification /Objective Quality Analysis</i> .....	5
--	---

Report of the Chairperson of Session IV: J. Le Marshall <i>Rapid Scan and High Resolution Studies</i> .....	7
--	---

Report of the Chairperson of Session V: R. C. Bhatia <i>Microwave /Lidar Studies</i> .. ..	9
---	---

Report of the Chairpersons of Session VI: N. Bormann and C.Velden <i>New Techniques and Instruments</i> .....	11
--	----

Reports of the Working Groups	
<i>Working Group on Methods (J. Daniels)</i> .....	13
<i>Working Group on Mesoscale Applications (J. Schmetz)</i> .....	17
<i>Working Group on Verification (K. Holmlund)</i> .....	21

## LECTURES

### **SESSION I**

#### ***CURRENT SYSTEMS TO DERIVE ATMOSPHERIC MOTION VECTORS (AMVs)***

M. Tokuno, R. Kumabe and Y. Kajino <i>Recent Advances to Experimental GMS Atmospheric Motion Vector Processing System at MSC/JMA</i> .....	25
---	----

R.C. Bhatia, D. Singh, S. Prasad and S.K. Mukharjee <i>Current Status of Operationally Derived INSAT-CMV's Quality, Details of Recent Improvements and Utilisation of Derived Products</i> .....	33
---	----

K. Holmlund <i>Current Status of the EUMETSAT Operational and Future AMV Extraction Facilities</i> .....	45
J. Gustafsson, L. van de Berg, F. Roveda, A. Yildirim, N. Bormann and S. Uppala <i>Reprocessing of Atmospheric Motion Vectors from Meteosat Image Data</i> .....	53
M.D. Conner, C.D. Schuett, T.D. Johnson and C.E. Skupniewicz <i>Operational Considerations and Uses for Geostationary Satellite Derived Wind Vectors</i> ...	63
J. Daniels, C. Velden, W. Bresky, A. Irving and K. Turner <i>Status and Development of GOES Wind Products at NOAA/NESDIS</i> .....	71
G. Dengel and C. Velden <i>Update on UW-CIMSS Atmospheric Motion Vector Research and Development</i> .....	81

**SESSION II**  
**MESOSCALE APPLICATIONS**

R.M. Rabin <i>Mesoscale Winds in Vicinity of Convection and Winter Storms</i> .....	89
J.R. Mecikalski <i>Using Cloud-Motion Winds to Understand Kinematic Processes of Deep Convection: Anvil-Level Outflow and Momentum Transport</i> .....	97
J. Schmetz, K. Holmlund, M. König and H.-J. Lutz <i>Observation of the Diurnal Variation of Upper Tropospheric Divergence in a Tropical Convective System</i> .....	105

**SESSION III**  
**VERIFICATION / OBJECTIVE QUALITY ANALYSIS**

N. Bormann, G. Kelly and J.-N. Thépaut <i>Characterising and Correcting Speed Biases in Atmospheric Motion Vectors Within the ECMWF System</i> .....	113
K. Holmlund, C.S. Velden, M. Tokuno, J. Le Marshall, R. Sarrazin and J.M. Fernández Serdán <i>Automatic Quality Control with the CIMSS RFF and EUMETSAT QI Schemes</i> .....	121
N. Bormann, S. Saarinen, J.-N. Thépaut and G. Kelly <i>The Spatial Structure of Observation Errors in Atmospheric Motion Vectors</i> .....	129

J. Le Marshall, G. Mills, R. Seecamp, N. Pescod, L.M. Leslie and A. Rea  
*High Density Atmospheric Motion Vectors and their Application to Operational  
Numerical Weather Prediction* ..... 137

R. Sarrazin and B. Brasnett  
*Modifications in the Operational Use of Satellite Atmospheric Motion Winds at CMC*..... 147

M. Das Gupta, A.K. Mitra, S.C. Kar, V.S. Prasad, G.R. Iyengar, D. Rajan,  
R.K. Paliwal and S.V. Singh  
*Impact of High Density Atmospheric Motion Vectors in NCMRWF Global Data  
Assimilation-Forecast System* ..... 155

P. Butterworth, S. English, F. Hilton and K. Whyte  
*Improvements in Forecasts at the Met Office through Reduced Weights for  
Satellite Winds* ..... 163

**SESSION IV  
RAPID-SCAN AND HIGH-RESOLUTION STUDIES**

Y. Nakamura, E. Ozawa, K. Onogi, R. Kumabe  
*Impact Experiments on NWP with Rapid Scan AMVs* ..... 171

A. de Smet  
*Operational AMV Products Derived with Meteosat-6 Rapid Scan Data* ..... 179

H.I. Berger  
*Assimilation of GOES Rapid-Scan Winds into an Experimental Eta Model during  
Atlantic Hurricanes*..... 187

**SESSION V  
MICROWAVE / LIDAR STUDIES**

S. Lehner, J. Horstmann and W. Koch  
*Wind Fields Retrieved from SAR in Comparison to Numerical Models* ..... 193

A.F. Nerushev  
*A new Method of Retrieval of Wind Velocity over the Sea Surface in Tropical Cyclones  
Over the Data of Microwave Measurements* ..... 201

S.K.R. Bhowmik and A.M. Sud  
*Impact of MSMR Surface Wind Speed on the Analysis and Forecast of a Limited  
Area Model*..... 207

A. Stoffelen  
*Use of Sea Winds for Weather Forecasting* ..... 215

J.D. Hawkins, T. Lee and J. Turk <i>Naval Utilization and Research on Wind Remote Sensing</i> .....	223
P. Ingmann, M. Endemann and the Members of ADM-Aeolus Mission Advisory Group <i>Status of the Doppler Wind Lidar Profiling Mission ADM-Aeolus</i> .....	231
A. Stoffelen and G.-J. Marseille <i>Lite on ADM-Aeolus Performance</i> .....	239
R. Atlas <i>Observing System Simulation Experiments to Define Lidar Wind Requirements</i> .....	247
 <b>SESSION VI</b> <b>NEW TECHNIQUES AND INSTRUMENTS</b>	
D. Santek, J.R. Key, C.S. Velden, N. Bormann, J.-N. Thépaut and W.P. Menzel <i>Deriving Winds from Polar Orbiting Satellite Data</i> .....	251
L.P. Riishojgaard and Y. Zhu <i>Impact of MODIS Winds on DAO Systems</i> .....	263
A. Horváth, R. Davies and G. Seiz <i>Status of MISR Cloud-Motion Wind Product</i> .....	269
J.P. Dunion and C.S. Velden <i>Using the GOES 3.9 <math>\mu\text{m}</math> Shortwave Infrared Channel to track Low-Level Cloud-Drift Winds</i> .....	277
F. Désalmand, A. Szantai, G. Sèze and M. Desbois <i>Improvements in the Retrieval of Low Cloud Motion Winds over Land on Satellite Images</i>	283
J. Xu, F. Lu and Q. Zhang <i>Automatic Navigation of FY-2 Geosynchronous Meteorological Satellite Images</i> .....	291
G.G. Campbell and G. Dengel <i>Verification of Automatic Winds and Heights with Asynchronous Stereo Analysis</i> .....	297
W.P. Menzel and A.J. Schreiner <i>Comparison of Cloud Motion Vector Height Assignment Techniques Using the GOES-12 Imager</i> .....	301
H. Laurent, N. Arai, B. Fomin, L.A.T. Machado and M.A. Gondim <i>Wind Extraction Using Satellite Images in CPTEC: New Version and Evaluation with WETAMC/LBA and Operational DSA/CPTEC Data (paper submitted but not presented)</i> ..	307
List of Participants .....	319
